

Important information

APCLe-1500 New design

01.01 - 11/2025

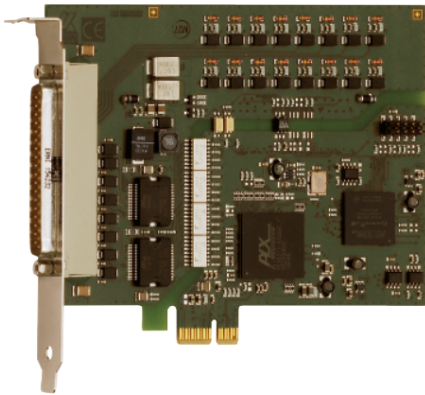

The design of the APcle-1500 has changed

We know how **long-term availability** is important to you.

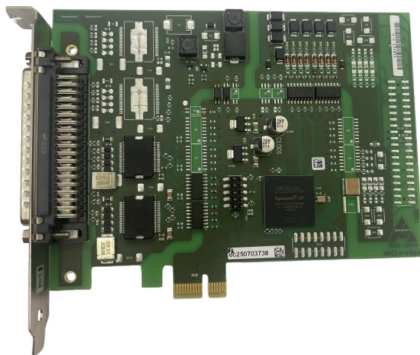

To maintain our products as long as possible on the market we need to update our design on a regular basis.

The function of the board is not affected by this change, i.e. the board remains **completely compatible** in terms of connector, function and software.

Do you have any questions? Do not hesitate to call us or to send us an e-mail.

Former design - rev. C

New design - rev. E (as of 11/2025)
